顶峰教育中心

MY PINNACLE

EDUCATION CENTRE

The education centre that is constantly bringing students to their pinnacle of their academic achievements! Not just results, we impart the right values too!

✓ 13 years and still counting (in operation since 2005), we have been one of the **Best** in producing **Stellar** students. More than **100 A* Achievers** in PSLE and over **100 Distinctions** attained in GCE 'O' Levels (2005-2017) from our one and only centre.

✓ This year, we celebrate the achievement of some of our centre's past graduates who have made significant achievements in their higher levels of education. They have indeed surprised us when they dropped by to tell us and they include Mr. Nashruddin who scored a **perfect GPA score of 4.0**, Ms Chua B.P who is doing her **Double Major with Honours in Chemical, Biomolecular and Business Engineering** in NTU and Ms Audrey Ong who is doing a **Double Major in Economics & Law** in NUS (she has been offered a **scholarship**

English Composition & Comprehension cum Listening & Oral Course

Once per week (1 ½ h)

P1/P2	Thu	4.00pm-5.30pm
P3/P4	Sat	11.30am-1.00pm
P5/P6		9.30am- 11.00am

to further pursue her studies and we are very proud of her!).

***Enquire details of changes to syllabus from our teachers and how it will affect your child's performance. Our students' performance records could be found@**
<http://www.mypinnacle.com.sg>.

Student Development

Having over 13 years of teaching experience, our journey with our students begins with

- Identifying and polishing their **strengths**, while ironing out their **weaknesses**.
- Pursuing a **positive** learning attitude in class and getting rid of students' **negativity**.
- Instilling **confidence** and **discipline** in their learning process with emphasis on **understanding the questions, applying concepts and keywords** on every **structured solution**.

MY PINNACLE MATHS

- ✓ Our Math program teaches students to use different Methodologies
- ✓ Primary Level: (Visual vs. Cognitive) to suit each of their style of solving difficult problem sums. (Model drawing, Parts & Units etc.)

- ✓ **Secondary Level:** Approaching various challenging problems from various angles. (When tackling challenging Math questions, most students approach them from a wrong angle.)

MY PINNACLE SCIENCE

- ✓ Cultivate students' interest in Science; interest is the **key** to unlocking potential.
- ✓ Emphasis on answering structured questions by applying "**Compare & Contrast, Cause & Effect + Keywords**" approach to **real-life simulated questions** in exams.
- ✓ Enhance **emphasis on rules** to specific questions when answering structured questions. (Students are **puzzled** as they do not know why their answers **seemed to be correct** but are in actual fact **not acceptable** in exams.)
- ✓ Guiding students to be **focused on clear and concise explanations** in their solutions; allowing our students to **differentiate themselves from the mediocre** as they set the bar with solutions that are better than the rest, if not the **best!** (When one look at their solutions, one would be able to identify them as a **trademark** of our centre.)
- ✓ **Multimedia and Experimental-based learning** to enhance and boost the aspects

of creativity, effectiveness, educational and fun-learning!

Excellent PRI/SEC Programs

Our well-designed programs produce **top students with excellent grades**. Developed by our experienced teachers who have developed students from NYGH, RGS, RI, MGS, Catholic high, Swiss Cottage, NYPS, CHIJ, SVPS etc. Our yearly **Top** students have achieved an excellent score of **260+ and above in PSLE (Student Avg. T-score of 243) and 6-8 distinctions in GCE 'O' Level Exams**. Visit our website to find out more about one of our students who has improved her scores from **B4 to distinction** in just fewer than 7 weeks and a look at the numerous transcripts of our top performing students.
